CENTRAL LOUNGE MODEL

This stunning new addition to the Platinum range offers a totally different layout to the rest of the models.

The open plan living space, with expansive lounge and dining area has been thoughtfully designed to integrate with a family sized kitchen.

With the option of 6 foot wide French Doors in lieu of the entrance door and dinette window you can easily extend your living space outside for some dining 'al fresco'.

The master bedroom enjoys both full en-suite facilities with a large walk in shower and the panoramic front window aspect associated with all the Platinum range, having been designed to take advantage of the picturesque views afforded by some holiday parks.

In addition, the second bedroom is large enough to be utilised as a double or twin room and has the added benefit of full en-suite facilities.

Built with the usual finesse and attention to detail of the Platinum range the Centre Lounge model offers a refreshing variation for those customers who prefer something a little different!
